Uno, simple practical and cost effective.

Uno

Single-walled partitions

Uno partitions are an economic answer to the division of large and small areas. This system is top hung without the need for floor rails or guides. Openings do not have to be adapted to suit standard sizes because the Uno is custom made to fit.

FEATURES AND BENEFITS

- Constructed of high quality dense, ecologically sound chipboard panels
- Various finishes including melamine, laminate, wood veneers and vinyl
- Economical, quick and easy to use
- Made to measure
- 12 month guarantee
- Finger safe hinges
- Optional Euro cylinder lock

Operation

The system can be easily moved by one person. Sealed for life roller assemblies which incorporate nylon runners ensure smooth and silent operation.

Partitions can be single wing, bi-parting or have floating sections.

Construction

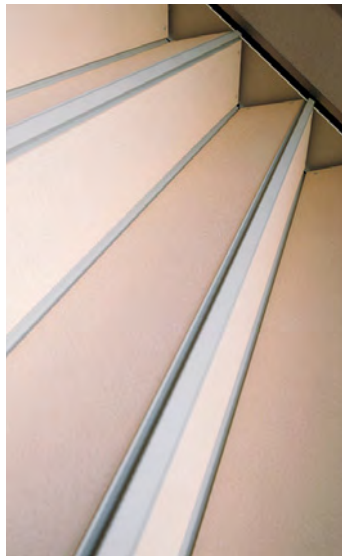
Uno is single walled and constructed of high quality, dense, ecologically sound chipboard panels finished to suit your requirements. Extruded P.V.C hinges connect the panels together.

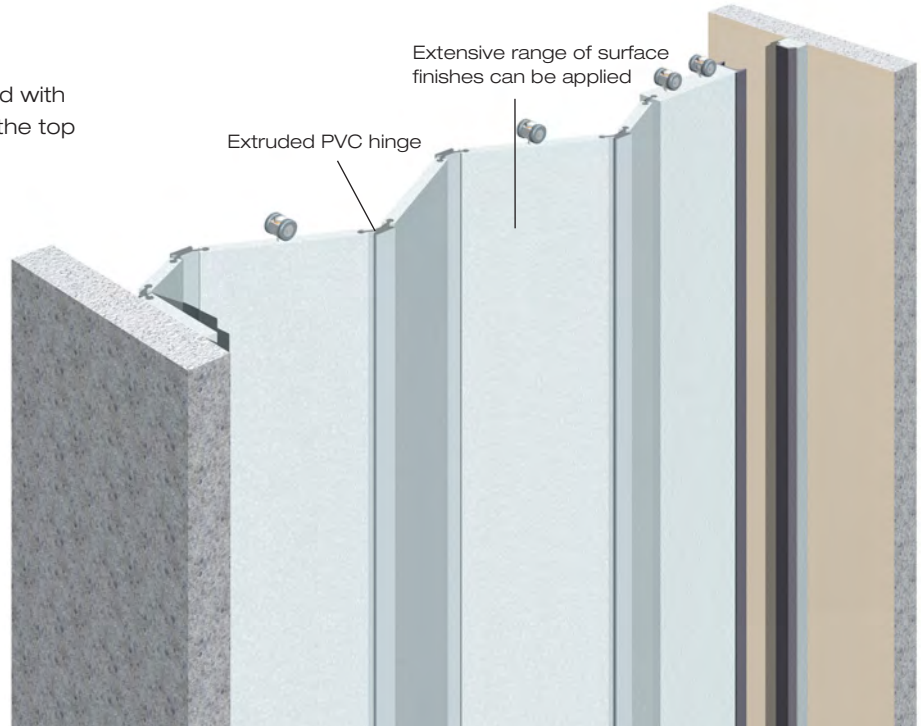
The Uno is available in 3 panel widths:
Uno 6 -150mm;
Uno 8 - 200mm;
Uno 12 - 300mm.

To achieve acoustic performance the Uno 6A, Uno 8A and Uno 12A are fitted with continuous P.V.C acoustic sweeps to the top and bottom of the hinged panels.

Finishes

Finishes include: melamine, laminate, wood veneers and vinyl wall covering. The track in standard format is satin anodised aluminium, however, this can be powder coated to any BS or RAL colour. Pelmets in standard format are white. Other colours are available. PVC hinges are offered in white, black, or grey.





Type	Acoustic (RIW)	Weight (kg/m)	Max Height (mm)	Max Single Wing Width (mm)	Panel Width (mm)	Width when stacked
UNO 6	N/A	15Kg/m2	3000	5000	150	175
UNO 8	N/A	15Kg/m2	3000	5000	200	225
UNO 12	N/A	20Kg/m2	3000	5000	300	325
