

PROJECT

Signature South Lodge Care Home
High quality accommodation for the elderly

LOCATION

London Road, Leicester

DESCRIPTION

Avonite solid surface was supplied for use in the care home's en suite bathrooms. Sky Glass from the Avonite Studio Collection was used in dementia suite units, while Newcastle grey acrylic from Avonite's Foundations range was chosen for all other en suites. The project called for Avonite product in varying sizes and a mixture of left and right hand options. Delivered product was cut to size and had a satin finish, ready for installation. Sink cut outs were pre-prepared before delivery from drawings and measurements supplied.

DETAILS

The site was visited to discuss requirements before and during the job. Adapting quickly to changes throughout the project, Sylmar worked efficiently, often delivering items on short lead times and supplying replacement product within 24 hours when required. A design change was necessary where some pipework was boxed in - Sylmar measured, quoted and delivered additional Avonite material quickly and proficiently, ensuring the completion date was unaffected.

TESTIMONIALS

“ I find Avonite to be a very good, durable product and would have no hesitation in using it on future projects. Sylmar were very obliging and helpful - they would arrange for our call off to be processed in a matter of days and even deliver by car if we were desperate and that happened on several occasions. Altogether a very good and efficient company and superb product. ”

Ian Exton, Senior Site Manager *Mansell Construction Services Ltd*

“ We are very pleased with the aesthetic of the products used - Avonite always looks great. For the dementia suite in particular, it was important to find the right tone, so we were able to put a few different options from the Avonite range to the client. We're very happy with the end result. ”

Claire Jones, Interior Designer *Leisure Concepts Interior Design*
Specified the Avonite product for the South Lodge project

“ It's crucial to create a calming atmosphere for people with dementia, so we had specific requirements for the colour scheme in the en suite. Avonite Sky Glass is ideal. Feedback from residents and their families is extremely positive – they find the bathrooms are not only fit for purpose, but modern and stylish too. ”

Kim Britton, Wellbeing Manager *Signature South Lodge Care Home*
