

Uniclass L537	EPIC E451
CI/SfB (43)	Pr4

**Multiquartz** is a range of flooring using resin and quartz with the following features:

- Excellent durability
- Aesthetically attractive
- Unlimited range of colours
- Seamless
- Ideal where hygiene is important
- Ideal for retail, commercial and industrial use

*Multiquartz Flow - hair salon*

*Resin Terrazzo - school corridor*

### GENERAL

**Introduction** *Multiquartz* is a range of seamless flooring that uses resin and quartz. By specifying a particular combination of aggregate and resin, the flooring can be adapted for most applications.

The range comprises:

**Resin Terrazzo**

**Multiquartz Flow**

**Multiquartz Industrial**

**Multiquartz Trowelled Screeds and Marble Finish**

### Resin Terrazzo

**Introduction** *Resin Terrazzo* is a high quality, low-maintenance floor that uses selected aggregates and coloured resin.

**Applications** Unlike conventional terrazzo, *Resin Terrazzo* is laid at a depth of 8 - 10 mm, so is ideally suited for refurbishment work as well as new build. Typical applications are airports, railway stations, shopping centres, restaurants and bars, night clubs, museums and laboratories.

**Description** *Resin Terrazzo* incorporates various fillers, such as granite and marble chips, coloured glass, mother of pearl and coloured synthetic chips. Using divider strips of either brass, aluminium, zinc or plastic, designs and colours available are almost unlimited.

**Dimensions** It is laid to a depth of 8 - 10 mm.

**Appearance** *Resin Terrazzo* is available in an unlimited range of colours.

### Multiquartz Flow

**Applications** *Multiquartz Flow* is ideal where a smooth seamless finish is required. It is available in 2 options **hard** or **soft**. **hard** is suitable for retail and commercial applications; **soft**, which is also suitable for retail and commercial applications, is ideal for children's play areas, nurseries and gymnasiums.

**Description** *Multiquartz Flow hard* is a seamless, self-smoothing floor topping available in hi-gloss or matt options.

**Soft** has the warmth and softness of a cushion vinyl but is as hard wearing as a vinyl safety flooring. Although it feels soft underfoot, it is extremely resilient.

**Dimensions** Depth is 2 - 6 mm depending on system.

**Appearance** *Multiquartz Flow* is available in an unlimited range of colours.

*Resin Terrazzo - commercial*

*Multiquartz - motorbike showroom*

### **Multiquartz Industrial**

**Applications** *Multiquartz Industrial* is particularly suitable for food preparation facilities and the pharmaceutical and catering industries.

**Description** *Multiquartz Industrial* comprises fine grades of quartz combined with resin to give a heavy industrial screed that provides a seamless, durable, hygienic and slip resistant surface. Matching skirting and coving are available. It is resistant to most chemicals and provides excellent wear resistance.

**Dimensions** Depth is 4 - 6 mm.

**Appearance** *Multiquartz Industrial* is available in a vast range of colours.

### **Multiquartz Trowelled Screeds and Marble Finish**

**Applications** *Multiquartz* is ideal for any floor area where a decorative floor with good wear resistance is required such as retail facilities, car showrooms, theatre foyers, entrances to public buildings and swimming pool surrounds.

**Description** *Multiquartz* consists of quartz granules or marble bound with appropriate resins to give a highly decorative flooring for internal areas. Depending on the environment, the floor can be sealed or unsealed. Natural aggregates such as gravels and crushed stone can be used on outside areas.

**Dimensions** Depth is 4 - 10 mm, depending on installation.

**Appearance** *Multiquartz* is available in a vast array of colours.

### **SITWORK**

**Curing time** At 20°C, flooring takes foot traffic after 24 hours, has load bearing capacity after 3 days and is fully cured after 7 days.

### **MAINTENANCE**

SurTech supplies full cleaning and maintenance information which can be easily incorporated into clients' existing cleaning regimes.

### **SUPPLY, SERVICES**

**Availability** Products are available direct from the company.

**Sales and technical** Assistance on sales matters and technical advice are available from the company at the address below.

**Services** SurTech Ltd offers a supply and install service only.

### **REFERENCES**

**Other products** Also available from SurTech are the following:
