

CPD title:

## Design and Sustainability Considerations of Next Generation PVC-UE Building Products

### Seminar details

- PVC in design
- The mechanical properties of PVC
- The cost drivers of PVC when installed against preserved timber
- The relevant safety issues relating to PVC building products
- The broad principle of PVC as a sustainable building material

### Duration

25 minute presentation

### Also available

- Product literature via website [www.kbp.co.uk](http://www.kbp.co.uk)
- Technical department
- Specification department providing Bill of Quantities and prices
- Material samples
- Vinyl 2010 compliance

### Areas covered

- East Midlands
- Eastern
- London
- North West
- Northern
- Scotland
- South East
- South West
- Southern
- Wales
- Wessex
- West Midlands
- Yorkshire
