

Triton Systems Triton supplies Isola Platon cavity drain membranes, primarily for new build and existing basement waterproofing, concrete waterproofing and flood resilience systems, ground gas barriers and anti-condensation, damp proofing and timber preservation products.

CPD title:

1. New Build Basement Waterproofing 2. Waterproofing Existing Basements 3. Living/Green Roofs

Seminars 1 & 2 details

- To clarify the specific requirements for waterproofing either new build or existing below ground structures
- To explain how each of the three types of waterproofing system as defined in Code of Practice BS 8102 (2009) works
- To demonstrate why and where each system (or combination of systems) should be specified

Seminar 3 details

An introduction to Living/Green Roofs, covering the benefits of a green roof, types of green roofs, design principles and considerations, construction detailing and the standards and regulations.

Duration

40 minutes
