**DAVID SALISBURY LONDON SHOWROOM**

The Chelsea Gardener, 125 Sydney Street, London SW3 6NR

Our contemporary garden room was designed and constructed in early 2017. Acting as a contrast to our traditional orangery, this structure is all about the clean lines that one would associate with current design trends. The floor to ceiling bi-fold doors open right out to provide a great feeling of inside and out - a particular benefit of a garden room.

This striking building shows our bespoke design abilities can be extended to almost anything that involves quality timber windows, doors and glazed extensions.

By day or night, our garden rooms and orangeries are designed for year round enjoyment and built to last a lifetime. Modern or traditional? Every project we design is completely bespoke, so we can cater for any design requirement.
