description	summary acoustic fabrics

NBS information is available for most products, indicated by ^{NBS} after the product name
[Click here for our NBS products](#)

- This document is best viewed in 32Bit True Colour Resolution.
- We recommend you order samples prior to placing an order as colour accuracy varies from monitor to monitor and we cannot be held responsible for colour discrepancies. **PLEASE NOTE:** We do not accept returns of fabric.
- These fabrics are an open weave type and allow sound to enter acoustic products, materials and absorbers placed behind it.
- These fabrics are acoustically 'transparent'; they are **NOT acoustically absorbent** in any way and **NOT suitable for any soundproofing applications**.
- The Cara range is the standard range that we use to cover our custom made acoustic products.
- Other fabrics are available on request, up to a Class 0 Fire Rating, at additional cost.

Cara fabric

Composition:

- 100% Polyolefin

Weight:

- 220g/m² ±5%

Width:

- 170cm ±2% usable

Maintenance:

- Wipe clean with a damp cloth

Flammability:

- BS 476 Part7 Class 1, BS EN 1021 – 1: 1994 (cigarette)

- Part code FAB

Lucia fabric

Composition:

- 100% Recycled Polyester

Weight:

- 260g/m² ±5%

Width:

- 170cm ±2% usable

Maintenance:

- Wipe clean with a damp cloth

Flammability:

- BS 476 Part 7, Class 1, BS EN 1021 cigarette and match

- Part code FAB002

Lucia

Lucia CS flame retardant fabric

Composition:

- 100% Trevira CS® flame retardant polyester

- Part code FAB005

Please be aware that colours displayed on a computer screen or printed from this data sheet may not represent the exact shade of the fabric.

NOTES – ALL FABRICS

Colour matching: Batch to batch variations in shade may occur within normal commercial tolerances.

Seam performance: Please note that seam performance is dependent on seam construction and needle and thread type. We recommend that appropriate sewing advice be taken.
