
Product Specification Document

DATE: 25.07. 2019

REF: PL-CW-PSDFWM01

Detailed Description

FWM (Flexible Wall Membrane) has been developed for use onto walls, to provide waterproofing beneath ceramic, natural stone and porcelain tiles in bath/ shower rooms and other wet areas.

Pale blue, solvent free waterproof coating, suitable for use with Tilesure waterproofing and Decoupling Membrane or Screedsure waterproofing membrane. Junctions/ corners must be first reinforced with Reinforcing Tape as necessary.

System Components

FWM 8kg Tub
FWM Reinforcing Tape
FWM Primer

Features and Benefits

- Lifetime Guarantee
- Solvent free
- Quick and easy to apply
- Compatible with Tilesure and Screedsure
- Suitable for use on all commonly encountered substrates

Preparation

- All surfaces are to be clean, dry, free from dust, grease and oil, etc. Surfaces must be smooth, sound and flat, with all indentations filled with a suitable filler and all protrusions struck off
- Junctions/corners must be first reinforced with Reinforcing Tape as necessary

Product Specification Document

Application

- Single coat, brush or roller applied
- Coverage per coat (minimum 1 kg/m²)
- FWM-8: 8kg tub
- FWM should be applied to the walls of the shower area and overlapped onto the Tilesure Reinforcing Tape

Product specification

Product reference	Code	Size/Weight
FWM	FWM-08	8kg
FWM Reinforcing Tape	FWM-TAPE	10m
FWM Primer	FWM-PR5	500ml
