Samples: Illustrations in this publication are as accurate as the printing process will permit and will reflect lighting conditions at the time the photographs were taken. To appreciate fully the appearance of the bricks please request samples from our Sales office on 01384 78361 or info@ketley-brick.co.uk; these are freely available and will provide a better guide. All our products are made from naturally occurring materials and therefore a certain degree of colour variation is an inherent feature of the products.
Brick Slips

Ketley Brick’s range of extruded brick slips eliminate the need and cost to cut down bricks for use with pre-fabricated panels and other cladding solutions. They have only 30% of the embodied carbon of a traditional cut brick slip and are a highly durable, sustainable and cost effective choice for construction.

Ketley Brick Slips are manufactured from the same clay, using the same processes as the Ketley Class A Engineering bricks and Dreadnought Roof Tiles to deliver the same technical characteristics of very low water absorption, very high strength and unrivalled frost resistance.

Ketley Brick Slips are the sustainable choice to create authentic brick facades for both external and internal applications. All the colours are achieved naturally through the careful control of the kiln atmosphere without the use of surface pigments or artificial stains. This generates a warmth and authenticity to the brick colours which cannot be matched.

All colours are available in a smooth, sanded or textured finish and with the choice of either a ribbed or dovetail key on reverse.
Technical Specifications for Brick Slips

**TYPE:** Extruded Brick Slips  
**TEXTURE:** Smooth / Sanded / Textured  
**MANUFACTURE:** Extruded  
**REVERSE KEY:** Ribbed key to a depth of 2.5mm or Dovetail (for pre cast concrete applications) key depth 4.5mm

Packing: Banded for fork lift off-loading  
- 1890 pieces per pallet 18mm  
- 2170 pieces per pallet 15mm

Weight per pallet:  
- Weight 1100kg 18mm  
- Weight 1000 kg 15mm

**European Standard BS EN 771-1: 2011**

- Masonry Unit Group: FL  
- Water Absorption: ≤4.5%  
- Net Dry Density: 2200 kg/m³ (Typically)  
- Soluble Salt Content: S2  
- Durability: F2 (Frost Resistant)  
- Fire Reaction: A1  
- Dimensional Tolerance Mean: T2  
- Dimensional Tolerance Range: R1

A complete range of Special Shapes to BS 4729 2005 is available. We also undertake the manufacture of ‘non-standard’ specials to customers’ specification as required.
