- Solid construction
- Great weather performance

Enhanced security

Safe for children

Sound reduction

Energy saving

Optional fire resistance

Optional aluminium cladding

■ Standard timber corner section, also available aluminium clad

FIXED LIGHT

(FA)

■ *NorDan's fixed light window, interior view*

Custom angled shapes available to suit your design.

CONSTRUCTION

Fixed lights are available glazed or with insulated panels allowing for inclusion of non-vision panels.

FRAME

The 92mm deep frame offers a solid, high performance construction. Timber is double vacuum impregnated for protection and has full PEFC chain of custody accreditation.

DOUBLE GLAZED SEALED UNIT

Improved energy saving unit contains low emissivity glass and argon filled cavities: 6mm +16mm Argon + ES4mm. Many other glazing options are available. Warm edge technology is employed in the spacer bars to improve the thermal efficiency of the sealed unit.

OPTIONS

OPTIONAL ALUMINIUM CLADDING

Aluminium cladding increases the life-span of the window and also greatly reduces maintenance costs. Cladding can be powder coated from any colour in the classic RAL range.

TRICKLE VENT

Trickle vents are available which can match any internally opening NorDan window. Trickle vents for the standard timber fixed light include an insect mesh with vent hood. For aluminium clad fixed lights, the vent is hidden from view externally.

FURTHER OPTIONS

- Custom-made angled shapes available to suit your design
- Mullions and transoms
- Multi-sash and combination windows (fixed and opening lights) all in one frame are also available
- Factory pre-finished to any colour from the classic RAL range

AVAILABLE SIZES

Min width	238 mm
Max width	2988 mm
Min height	238 mm
Max height	2988 mm
Max width + height	5000 mm

NOTE: Size limitations also depend on the weight of the glazing, for further information please contact your nearest NorDan office.
