

URINALS & ACCESSORIES

We manufacture a range of very tough anti-vandal urinals and urinal stall dividers for public washrooms, all made from highly durable solid surface composite material. They are available in exposed or hidden service options, with or without associated pipe work or cisterns.

Urinals, services shrouds & dividers

A range of anti-vandal solid surface pod urinals and dividers for communal washrooms with options for services protection and flush activation.

KEY FEATURES

- highly vandal resistant
- proven 25 year+ life
- matching sanitaryware available

Urinal flush controls

Our urinal electronic controllers are highly flexible and fully programmable to manage the precise control of water flow to up to 8 of our CWU pod urinals. Activated by either Piezo touch button or infrared sensor, all cable connections are fully plug and play.

KEY FEATURES

- capable of managing up to 8 off urinal pods
- piezo and/or infrared activation
- fully programable including hygiene flush cycle
