

## **IMPERVIA FLOORING** THE BRAND YOU CAN TRUST TO BE WATERPROOF

### SPC RIGID LUXURY VINYL FLOORING

Using the latest technology, we are launching a range of waterproof luxury vinyl flooring with colours and textures matching our engineered wood flooring.

Unlike other versions our backing is made of IXPE which is a foam type plastic which makes it totally waterproof. Other use a cork or cork composite which over time will deteriorate.

When choosing your luxury vinyl planks make sure they compare to ours, which with the textured surface are much more like the real thing.

#### **Why Choose our SPC Vinyl Flooring:**

Best prices on the market for comparable quality, latest push fit technology and natural textured surface. The stone composite also has fibreglass to create a stable rigid plank, and because of the width and lengths it looks more natural unlike narrower shorter pieces which is commonly found in vinyl flooring.

#### Sizes available
