

Certificate of Registration

ENVIRONMENTAL MANAGEMENT SYSTEM - ISO 14001:2015

This is to certify that:

Aggregates Industries UK Limited
Bardon Hill
Coalville
LE67 1TL
United Kingdom

Holds Certificate Number:

EMS 96928

and operates an Environmental Management System which complies with the requirements of ISO 14001:2015 for the following scope:

Please see scope page.

For and on behalf of BSI:

Andrew Launn, EMEA Systems Certification Director

Original Registration Date: 2006-01-19

Latest Revision Date: 2018-10-23

Effective Date: 2018-02-10

Expiry Date: 2021-02-09

003

...making excellence a habit.™

Certificate No: EMS 96928

Registered Scope:

The extraction, processing and supply of the following products:-

Coarse and fine aggregates

Blended aggregates

Fills and sub-bases

Rock armour stone

Dimensional stone

Rail ballast

Agriculture lime

The production of bitumous mixtures for roads, airfields and other paved areas. The recycling of bitumen bound aggregates into asphalt mixes. The recycling and processing of secondary aggregates. The production of pre-cast concrete building products for structural, civil engineering and domestic applications. Production and supply of wooden moulds and polyurethane inserts for internal use and Bradstone Licensees. Supply of bagged specialist, decorative, water filtration aggregates and Highway reinstatement products. The production and sale of ready-mixed concrete. The import, storage and despatch of cementitious materials. The sourcing and supply of Power Station Fly Ash materials into the Ready-Mixed Concrete market, Concrete Products markets and other related applications. The collection, recycling and disposal of construction and demolition waste including the production and supply of sub base and general fill materials. The management of stock piles. The unloading of Aggregate trains. Production and sale of lightweight aggregate (Lytag). The supply and lay of asphalt and dry stone materials to airfields, roads and other paved construction. The selection and management of subcontractors and suppliers (supply chain members). The management, construction and design of civil engineering projects, structures and associated works. Highway surfacing, reinstatement and associated minor civil engineering works. The laying of asphalt mixes. The planing, sawing, milling, crack and seating of pavement surfaces, including the provision of specialist services, for the technical enhancement of roads and airfield surfaces. Mix design of cement and other hydraulically bound materials. The mixing of bulk powders, granular materials, liquids and additives by continuous process for civil engineering and environmental purposes and for use as encapsulating material for landfill containment and site remediation. The supply and laying of cement bound materials to airfields, roads, ports and other paved constructions. Maintenance of plant and equipment.
