

ULTIDRIVE *POROUS*

The ultimate porous driveway and car park surface

ULTIDRIVE POROUS

The ultimate porous driveway and car park surface

Combining excellent drainage characteristics with long term durability, ULTIDRIVE POROUS is a hard wearing permeable asphalt that eliminates the problem of surface water while meeting relevant local planning requirements.

To find out how **ULTIDRIVE POROUS** can help you achieve longer-lasting results, quickly and cost effectively call **0800 1 218 218**

TARMAC.COM

PROVEN PERFORMANCE

Using the latest porous asphalt technology and a modified binder, the open aggregate structure allows effective drainage and avoids surface water.

ENHANCED COMPLIANCE

Reduces direct surface water run-off to meet the requirements of planning regulations and the code for Sustainable Homes.

IMPROVED SAFETY

Eliminates the problem of both standing water and ice patches that can occur in cold weather conditions.

FASTER COMPLETION

Avoids expensive additional drainage, allowing quicker project delivery and reduced disruption to clients and end users.

ULTIMATE SOLUTIONS

Available for driveways and car parks as a 6mm or a 10mm porous surface course and a 20mm and 32mm porous binder course. When used with the ULTIFLOW range of drainage aggregates, it offers a complete sustainable drainage solution.

ULTIMATE SUPPORT

At Tarmac, technical excellence comes as standard. ULTIDRIVE POROUS is only available for installation by accredited contractors who have full access to our expert training, advice and technical support.
