

Metal Door Access Panels with Picture Frame

Generated on 24.02.2020

Detailed description

Access panel with picture frame, manufactured in Zintec steel.

Features and benefits:

- Has a continuous hinge, and is secured using a budget locking system. Also supplied with a tee key as standard.
- Screw-fixed through the frame into a suitable trimming.
- Includes a flush, fully removable door.
- Manufactured from non-combustible materials.

Applications:

For application into ceilings for loft access, or walls for access to services.

Please note that the actual size of structural opening in the wall/ ceiling needs to be 5 mm larger than the overall panel size.

This panel is non fire rated.

Product guidance - As Standard

Material:

- Frame: 1.2 mm Zintec steel.
- Door tray: 1 mm Zintec steel.
