

Remote Flushing Kits, Battery Operation

Generated on 21.08.2019

Detailed description

Application:

- For dual flush.
- For use with Geberit Sigma concealed cistern 120 mm.
- Not suitable for barrier-free and wheelchair-suitable construction due to flush activation during side transfer.
- Not suitable for Geberit concealed cisterns prior to end of 2001.
- Not suitable for use with Geberit Kappa concealed cistern 150 mm or Geberit Sigma concealed cistern 80 mm or Geberit Omega concealed cistern 120 mm.
- Not suitable for use with Geberit insert for in-cistern block.

Characteristics:

- Infra-red user detection.
- Self-calibrating infra-red control.
- Infra-red detection with background fade-out.
- Driven by servo motor.
- Operation with extra-low voltage – no mains voltage in the cistern.
- Self-calibrating electrical lifting device.
- Automatic flush release is activated by breaking the IR beam for less than two seconds for a full flush and greater than two seconds for a small flush.
- Automatic flush actuation can be deactivated.
- Minimum detection time can be set.
- Initial flush can be set.
- Repeat flush can be set.
- Can be deactivated with Geberit Clean Handy.
- Flush actuation settings can be made and checked, using Geberit Service Handy.
- Plug connection with cross-polarity protection.

Product guidance - As Standard

Operating voltage:

3 V DC.

Battery type:

LR20.
