

DuPont AirGuard Control

Generated on 23.08.2019

Detailed description

Air leakage barrier (to reduce convection heat loss), with low vapour resistance for roof, wall or floor systems.

- Spunbonded polypropylene composition with polyolefin coating.
- Water vapour permeability (to BS 3177): $\leq 20 \text{ g/ m}^2/\text{ day}$.
- Head of water sustained without penetration (to BS 20811): 2 m.
- Nail tear resistance: 260 N.
- Flammability (to DIN 4102): B2.
- Rot resistant.

Lap:

100 mm.

Product guidance - As Standard

Material:

- Thickness: 0.25 mm.
- Roll size: 1.5 x 50 m.
- Weight: 108 g/ m².

Options

Accessories:

- Tyvek 2060B Tape

Single sided tape for sealing overlaps in Tyvek® membranes and making good around penetrations, pipework, windows and door openings. Very durable ensuring long term performance. Roll size: 75mm x 25m.

Double sided. For sealing to masonry, metal, plastics or wood, at laps or perimeters.

- Tyvek® Double Sided Acrylic Tape

Double sided acrylic tape for sealing laps in Tyvek® membrane and bonding to smooth surfaces. Excellent adhesion properties under extreme conditions. Strong initial tack. Roll size: 50mm x 25m.

- Tyvek® Butyl Tape

Double sided butyl based sealant, used to seal fixing penetrations in a Tyvek® membrane and form a moisture and airtight seal between a Tyvek® membrane and most commonly used building materials. Tape is compatible with brickwork, blockwork, masonry, timber, metalwork and most plastic products. Roll sizes: 20mm x 30m, 50mm x 30m.
