

## Ballorex MVS Modular Valve System

Generated on 08.12.2019

### Detailed description

A bespoke system which comprises a variety of interlinked multi-functional valves and components manufactured from DZR brass. These are assembled into a complete unit which allows connection, regulation, isolation, flushing and draining for fan coils and chilled beams.

Connections are made via female BSP, Tectite Pro or compression joints to the main pipework system and via flat face male connections suitable for adaption to the terminal unit.

### Product specification

#### Manufacturer
