

Gap Master

Generated on 23.08.2019

Detailed description

A silicone free mastic designed for filling gaps between parquet blocks, around skirting boards and door thresholds. Based on a polyacrylate compound the material can be sanded and overcoated with floor finishes. It contains no solvents, is odourless, can be used on all parquet finishes and retains a high degree of flexibility.

- Expansion: approximately 7 %.
- High degree of flexibility.
- Can be sanded and overcoated.
- Solvent and silicone free.
- Available in 14 colours.
