

Side Panel Mailbox model 2700-1 - SBD Compliant

Generated on 14.07.2020

Detailed description

The letterboxes are attached to a one-piece front plate which is designed to make the whole unit neat and offers the latest improvements against vandalism, as per Secured by Design and New Homes Guide 2019 guidelines.

No screws are visible from the outside or inside, and an internal anti-theft device is fitted as standard behind the flap. All post boxes are fitted with a lockable internal door supplied with two numbered keys to differ. Extra keys or replacement keys are available in 48 hours. The one-piece front plate can either be made of powder coated aluminium, silver anodized aluminium or stainless steel to match project requirements and other features of the building.
