

## 102 mm square rainwater pipe

Generated on 24.02.2020

### Detailed description

Dales square aluminium rainwater pipes are available in two standard sizes. Other square pipework can be supplied to order.

Dales standard pipe brackets are designed to fix the pipe very close to the wall and firmly clamp the pipe into position. This makes it difficult for vandals to climb.

Various non-standard components, e.g. offsets, stand off brackets and special hoppers, are available to suit individual requirements.

### Accessories:

A wide range of standard components are available, however, as manufacturers, Dales Fabrications Ltd are able to offer purpose made components to suit individual project requirements.

### Fasteners:

Consult manufacturer for recommendations.

### Secret Fix Pipework:

Dales square pipe is available with secret fixing and internal pipe jointing. This pipework offers improved security and very clean lines, Contact the manufacturer for details.

### Product guidance - As Standard
