

Woburn Original

Generated on 25.05.2020

Detailed description

A natural appearance, reminiscent of traditional sandstone setts and available in a range of sizes. Suitable for sett-style paving block with a chamferless weathered appearance, making it ideal for heritage sites and conservation areas.

Woburn Original is manufactured using a semi-dry process. Pigment is incorporated in batches to produce a spectrum of colours across the blocks.

The product meets the strength and skid-resistance requirements of BS EN 1338. The 60 mm thick blocks are suitable for car parking; 80 mm thick blocks are suitable for heavy goods vehicles.

Product guidance - As Standard

Finish/ Edge:

Chamferless.
