

## JCW Reflective Sound Screen

Generated on 15.12.2019

### Detailed description

An external, timber acoustic barrier, suitable for residential, commercial and educational projects, as well as sports venues, animal shelters, kennels, public houses and construction sites.

Can be fitted to timber or steel posts. The height of the sound screen can be varied to suit locations, up to a maximum of 5 m. Posts should be at 3 m centres.

Designed to the specification in Highway Works Clause 2504 with treatment to Sector Scheme 4. Complies with Highways Sector Scheme 2C for the prefabrication of environmental barriers.

### Product guidance - As Standard

Acoustic performance (BS EN 1793-2:1998):

- DL $\alpha$ 30.
- Category: B3.
