

Codale Conic Free Standing Modular Structure

Generated on 17.01.2020

Detailed description

A stylish canopy suitable for a range of applications including a colourful playground canopy, outdoor dining canopy and student social or study canopy. The cost-effective shade and shelter structure is constructed from a galvanized steel frame that can be coloured in a choice of 25 matt colours, including natural and vibrant shades. Integral guttering is hidden within the canopy beams and drains down inside the canopy leg posts. This gives the canopy a sleek, clean line appearance.

The frame is covered with a 650 g/m² waterproof tensile fabric that is also available in 16 different colours. The roof fabric offers 100% UV protection and is completely waterproof, fire retardant and has anti-fungicidal properties.

Product guidance - As Standard

Roof fabric:

Waterproof tensile fabric with a weight of 650 g/m², providing high tear and split resistance. The tensile fabric has a strength of 250/230 daN/5 cm.

Framework:

- Square as standard.
- Rectangular available, contact manufacturer for details.

- 3–7 x 3–7 m size:

- Main frame: Constructed from 150 x 100 mm steel box section.
- Legs: Constructed from 150 x 150 mm steel box sections.

- 7–15 x 7–15 m size:

- Main frame: Constructed from 200 x 150 mm steel box section.
- Legs: Constructed from 175 x 175 mm steel box sections.

Finish:

Powder coated.

Weather resistance:

The tensile fabric is UV stabilized offering the highest UV protection. It blocks up to 100% of the sun's harmful UV rays. It will not absorb moisture and is designed to perform well in all normal weather conditions.

Guarantee:

Ten-year guarantee on the steel framework and a six-year guarantee on the fabric. It has a life expectancy of approximately 15 years.
