

Hamilton Free Standing Canopy

Generated on 20.01.2020

Detailed description

Large free-standing canopy which can span up to 11 m in width and has an unlimited length. It is the perfect solution for large areas which require cover from the weather, such as outdoor dining areas or open air seating areas.

The Hamilton is also an ideal solution for playgrounds or venues which hold outdoor events, providing large areas of cover from the sun or bad weather. It has an innovative design which is durable and hard wearing and is ideal for many organisations within both the public and private sectors including education, retail, leisure and healthcare. The canopy has a life expectancy of 25 years.

Product guidance - As Standard

Roof panels:

16 mm thick structured polycarbonate panels with high UV protection.

Framework:

Main frame constructed from 150 x 100 x 5 mm steel hollow section. Guttering and downpipes are fitted as standard.

Roof bars:

Constructed from 50 x 50 x 2.5 mm steel box section.

Weather resistance:

During the manufacture of the polycarbonate panels, a layer of UV absorber is co-extruded on both sides which forms a barrier giving high UV protection from the sun.
