

Ecoglo Photoluminescent Stair Nosing/ Stair Edging tread

Generated on 20.02.2020

Detailed description

Failsafe photoluminescent stair nosing (stair edging) tread for internal and external use.

Features and benefits:

- Highly durable and extremely hardwearing: ten year project warranty available.
- Photoluminescent material illuminates the step edge.
- Suitable for internal and external use - the strip will recharge with exposure to both natural and artificial light and subsequently glow in the dark if the light source is removed.
- Incorporates a silicon carbide band to increase slip resistance.

Potential for slip (all treads):

Independently tested by Grip Potential Ltd. All tread options have a minimum PTV of 36+ in a wet test and 60+ in a dry test; this is considered 'Low Slip Potential'.

All products are available in a variety of stock lengths and packing; see manufacturer's literature for details.

Product guidance - As Standard

Finish:

Aluminium channel: Mill finish.

Material:

- Tread: Carborundum (silicon carbide).
- Channel: Aluminium.

Gauge:

0-9 mm.

Options

Type:

All products are slip resistant.

- Eglo-31/ Eglo-32/ Eglo-33/ Eglo-34/ Eglo-35:

- Width: 37 mm.
- For use with suitable double channel stair nosing.
