

Boa

Generated on 22.09.2019

Detailed description

Polyethylene sculptural furniture to sit, lie or stand on.

Features and benefits:

- Can be used indoors and outdoors.
- Able to seat 3–5 people.
- Can be used in two fundamentally different positions (turned 90°).
- Surfaces have a textured/ granulated finish due to the abrasive blasting of the mould. This enhances friction and makes the surface less slippery.
- UV- and weather-resistant.
- TÜV approved as playground equipment.
- The material is suitable for granulation and recycling.
- Moulded in one piece.
- Freestanding once filled with sand or water through the integrated plugs.
- Easily cleaned with a pressure washer.

Manufacturer recommends EN 1176 standard safety surfacing to be used within a 1500 mm radius of Boa.

Product guidance - As Standard

Size (l x w x h):

2400 x 1200 x 1200 mm.

Material:

Rotation moulded polyethylene, 6–7 mm thick, dyed.
