

Half Round and Angled Cap

Generated on 16.07.2020

Detailed description

UV-stable angled and half round ridge caps incorporate unique and innovative Flap Cap Technology. Flexible flaps contour around the sides of the Easy Verge U system effectively creating a 'sealed' unit that prevents water ingress and infestation.

Benefits:

- Weather resistant and UV-stable.
- Flexible polypropylene material allows for rapid installation.
- Maintenance free and mechanically installed.

Product guidance - As Standard

Weight:

- Angled range: 0.18 kg.
- Half round range: 0.11 kg.
