

## Heritage Collection

Generated on 20.07.2019

### Detailed description

The Heritage Collection offers generously sized 115 mm newels and 55 mm spindles in a choice of classic styles, ideal for staircases in exclusive homes and upmarket developments. Supplied in white oak, the system is suitable for use in both domestic and light commercial applications, having been strength tested to withstand loadings of 0.36 kN/m and 0.74 kN/m respectively, in line with UK Building Regulations, making it ideal for a multitude of projects.

### Product guidance - As Standard

#### Material:

White oak, unfinished – must be finished/ sealed on site following installation with a suitable finish following the manufacturer's recommendations.
