

## Flashband Original

Generated on 16.07.2020

### Detailed description

Flashband Original is a self-adhesive sealing strip which bonds instantly to provide a permanent watertight seal in all climates. It is easily applied using hand pressure only, with no requirement for special equipment for cutting, forming or fixing. For improved adhesion on porous or uneven surfaces, apply Flashband Primer. For smooth non-porous surfaces use, Flashband Primer SV

**Bostik Ltd**
