

## INTRAsystem DM™

Generated on 20.05.2019

### Detailed description

Heavy duty aluminium entrance matting with extra-width fibre inserts for optimum moisture absorption in high traffic areas.

#### Features:

- 100% recycled aluminium.
- Fully DDA-compliant.
- High durability.
- Compatible with standard INTRAsystem system.
- Closed construction.
- Optimum moisture absorption from extra-width fibre inserts.
- Interlocking sections allow for ease of installation and design possibilities.
- Suitable for all fibre insert ranges.

#### Applications:

Internal, high traffic environments.

Can be used in conjunction with wheelchairs and shopping trolleys, and the material is heel-proof.

#### Installation:

Can be installed into suitable recessed matwell area (surface level with adjoining floor covering), or surface mounted with the use of ramped edging.
