

ACO 218 Fixed Height Gully

Generated on 22.10.2019

Detailed description

Fixed height gullies for commercial applications where hygiene, durability and performance requirements are paramount. Convenient, free-standing units suitable for cementitious, resin or tiled floors. Available in a number of versions featuring different flow rates, grating designs, sizes and spigot outlet diameters to suit various applications and to match the floor construction and depth.

The hygienic design includes large radii-formed contours, deep-drawn components and minimal welds to minimise crevices and bacteria traps in accordance with BS EN 1672 and BS EN ISO 14159.

Benefits:

- Fully compliant with BS EN 1253.
- Available in 1.4301 or 1.4401 grade stainless steel.
- Fully removable and easily cleaned stainless steel foul air trap (FAT).
- Removable hygienic and corrosion resistant Nitrile FAT support.
- High flow rate gullies from 4.4 L/s.
- Dry sump design ensures no standing waste water in gully base.

Options

Grating:

Available in a range of patterns, finishes, stainless steel grades and load classes. Consult ACO Technologies for details.
