

## Elite Bronze Stair Edging

Generated on 24.02.2020

### Detailed description

An extensive range of attractive and hardwearing stair edgings comprising bronze channels with slip-resistant inserts.

The Gradus Elite stair edging allows the bronze channel to be fixed to the step first, with the insert fitted once the channel has been secured. This offers a concealed fixing and eliminates the need for screw head plugs.

To be used in conjunction with all types of floor coverings, and suitable for all commercial applications.

### Product guidance - As Standard

#### Material:

Polished bronze with PVC inserts.

### Options

#### Insert:

#### - Type:

The insert reference relates to the final figures in the stair edging code - e.g. ELA 11 '40' will accommodate the ELINS'40' insert.

#### Fixing:

- Gradus Grip (adhesive only): as per manufacturer's instructions.
- Mechanical (screw) and adhesive fix: as per manufacturer's instructions, consult Gradus for additional information.
