

Premier Protection Rail

Generated on 20.01.2020

Detailed description

Yeoman Shield Premier Protection Rail hides its functionality in pure aesthetics. It has the appearance of a decorative feature although it is a fully operational protection rail, ideal for those areas where corporate image is a major consideration. The Premier Protection Rail is ideal for use in hospitals, supermarkets, nursing homes, schools, banks, airports, offices and any other areas which are subject to damage by impact or abrasion.

Fixing:

- Straight runs: At 800 mm centres, 50 mm from internal angles and 100 mm from external angles.
- To plasterboard: Appropriate length 5 mm machine screw, 5 mm rubber rawlNut.
- To brickwork, breeze blockwork, concrete: Appropriate length no. 10 woodscrew, no. 10 plastic plug.
- To lightweight blockwork: Appropriate length no 10 woodscrew, Fischer S8 plastic plug.

Product guidance - As Standard

Dimensions:

Premier Protection rail is workshop manufactured to suit site sizes, lengths over 2.44 m are jointed on site. The rail is 200 mm wide and has a projection of 20 mm. Rail width can be manufactured to specified width.

Finish:

Special colours are available subject to order quantity or premium. The insert is available in a range of finishes (FalmouthEx is provided as a standard finish) to help conceal the effects of impact and abrasion.

Materials:

Manufactured with a pre-formed MDF backing core with Vinylac face, edge with high quality Ash trims.

Corners:

Internal corners are mitred, Vinylac insert is cut and fitted. External corners are mitred, Vinylac insert is fabricated for continuity. Irregular internal and external corners are manufactured to order.

Options

Insert colour:

Standard colours for the insert are listed. Special colours are available subject to order quantity or premium. Signage can be incorporated within rails.
