Neatdek 3 Package

Generated on 08.08.2019

Detailed description

Neatdek:
An innovative grille system that lies flush to the floor level, whatever the application. Combined with the Aluseal half height shower doors to keep water within the showering area, Neatdek 3 allows fast, efficient drainage and a dry bathroom floor for maximum safety. Suitable for installation in a variety of floor constructions.

Plus Pack:
Shower grille which provides the invaluable benefit of true level access. Pack includes custom-made half height enclosures, white weighted curtain with rail and McAlpine waste outlet. Total shower solution in one package.

Complete Pack:
True level access shower package as plus pack but includes white hinged shower seat (DF 5805) and three, 600 mm white grab rails.

Options

Half height enclosure:
When ordering made to size doors, please stipulate size after reference number, e.g: ENC911L/1000/WF/38 would be the reference for a 1000 mm (mid size) long wet floor model with 38 mm radius inline tri-fold left hand hinged.

Neatseal:
PVC inset which is attached to the Neatdek 3 profile and hot seam welded directly to the vinyl sheet flooring, creating a completely secure and highly durable watertight joint. Supplied with mitred corners, Neatseal provides a hard-wearing alternative to silicon seals which have a tendency to perish and shrink over time.
