

## 1225 Hand Operated Curtain Track

Generated on 05.07.2020

### Detailed description

1225 Hand Operated Curtain Track is a ceiling mounted track with extended vertical flange, for light to medium weight curtains, designed for contract applications such as schools, hotels, hospitals, etc. Special gliders run on rim of channel reducing friction with curtain heading and can be easily removed or replaced without taking track down.

#### Features:

- Pre-drilled to allow fixings to be at 300 mm centres.
- Track cannot be bent.
- Gliders are normally fitted 14 per metre.

### Product guidance - As Standard

#### Dimensions:

15.4 mm (wide) x 19.6 mm (deep) track channel (wall flange 18 mm deep).

#### Material/ Colour:

White powder coated aluminium.

#### Fixing:

Fix track to soffit at 300 mm centres. Special gliders should be fitted at ten per metre to run on back of rims of track channel so as to keep curtain heading upright. Fit with end covers to each end of track.
