

ASSURE Multipoint Escape Device

Generated on 21.08.2019

Detailed description

ASSURE multipoint escape devices offering a high level of security whilst ensuring safe exit at all times.

Security is ensured by independently operated 15 mm diameter locking bolts. These are made from hardened steel and have a 25 mm throw. Supplied with strike(s) and dust-excluding floor socket. Handing is reversible on site.

ASSURE with Bar:

- Suitable for use on escape routes in public buildings and any area where a panic situation may arise, including security, ballistic, blast-proof and fire doors.
- Successfully type-tested for conformity to all the requirements of BS EN 1125: 2008.

ASSURE with Pad:

- Suitable for use on escape routes in office buildings, staff areas and similar applications, including security, ballistic, blast-proof and fire doors.
- Successfully type-tested for conformity to all the requirements of BS EN 179: 2008.
